

# P O S T E R

1 of 1

Cocoon Medical Spa is a full service integrated medical clinic in Bali providing Anti-aging, Integrative and Wellness Medicines for patients of all ages. The centre was founded on the simple need for first-class quality cosmetic and anti-aging treatments, delivered with a beautiful Balinese experience, at affordable prices – more than half the price of the same treatment in Australia, NZ, UK or USA. The internationally-qualified Indonesian doctors have an all-in-one integrative approach to beauty, helping the causes of aging and health problems, not just the symptoms. Aesthetic and cosmetic treatments are combined together with anti-aging and wellness treatments, including hormones, vitamin IV therapies, detoxification, Platelet Rich Plasma (PRP), Chelation and Ozone – all providing important anti-aging therapies for the body to heal itself. Cocoon's philosophy is simple – clients get visible results for the best possible price. A focus is to ensure their clients enjoy a noticeable difference in a short time with Cocoon's highest quality products and technologies, in the hands of an extremely experienced professional medical team. Visit their website and enjoy the Cocoon experience.
